PART 3: RECOMMENDATIONS

1.1 EXECUTIVE SUMMARY

PURPOSE:

To present the 2018/19 Draft Annual Budget together with Medium Term Revenue and Expenditure Framework (MTREF) to council for adoption.

BACKGROUND:

The Local Government Municipal Finance Management Act, No. 56 of 2003 (MFMA), has section 31 on annual budgets which stipulates that;

- 1) The municipal council must at least 30 days before the start of the budget year consider approval of the annual budget.
- 2) An annual budget—
 - (a) must be approved before the start of the budget year;

Guidelines and principles used for the compilation of the 2018 / 19 MTREF

- The 2017/18 Adjustment Budget priorities and targets which were informed by actual financial and non-financial performance for the semester to the end 31 December 2015;
- Gazetted DoRA allocations for the 2018/19 MTREF;
- National Treasury's MFMA Circulars 89 and 91;
- Headline Inflation Forecasts;
- The municipality took the following macro-economic forecasts into consideration when preparing the 2018/19 budget and MTREF as per the above-mentioned MFMA Circular 91 of the National Treasury:

Fiscal year	17/18	18/19	19/20	20/21
Consumer price inflation	5,30%	5,30%	5,40%	5,50%
Real GDP growth	1%	1,50%	1,80%	2,10%

- In addition, our municipality carefully considered the affordability of tariff increases, especially as it relates to domestic consumers while considering the level of services versus the associated cost. This will be discussed further in Tariff Modelling.

Challenges experienced in compiling the 2018/19 MTREF:

- The national and local economy challenges;
- Infrastructural backlogs;
- The deteriorating state of municipal cash receipts and resources make it difficult to reprioritise projects and expenditure in entirety;
- Year-on-year wage increases;
- Reliance on state grants and subsidies to fund both operations and capital projects;
- Expenditure that always end in excess of revenue;
- The Disclaimer of audit opinion;
- Poverty and unemployment which sees more households not being able to afford municipal services thereby seeking indigent subsidies;
- Increasing inflation rates.

In light of the afore-mentioned, the table below gives an overview of the consolidated 2018/19 Medium Term Revenue and Expenditure Framework:

The table shown above provides a summary of the whole municipal budget with a projected revenue amounting to R 253 812 582.00 together with expenditure totalling

R 217 908 746.00. This means that the municipality projects a R 35 903 836.00 surplus for the budget year as illustrated below:

1.2 OPERATING REVENUE FRAMEWORK

The projected total revenue totals R 253 812 581.56 compared to the total revenue from the previous financial which was R 232 580 101.00, this indicates a significant increase amounting to R 21 232 480.56. This increase was brought about by a new capital expenditure funding in terms of the Water Service Infrastructure Grant, a significant increase in both the Equitable Share and the Municipal Infrastructure Grant as well as an increase across revenue items as informed by MFMA Circulars 89 and 91

The table below gives an overview of total revenue as stated above:

In terms of the Division of Revenue Bill for 18/19, the municipality has been allocated a total of R 145 617 000, 00 in respect of grants and subsidies, this amount includes both monetary, in-kind operating and capital grants. Our monetary allocations amount to R 125 758 000.00 while the in-kind grants (to be administered by relevant departments) amount to R 19 859 000.00, these include the Regional Bulk Infrastructure Grant, the Water Service Infrastructure Grants and well as the INEP (Eskom) Grant.

Capital and operating grants amount to R 37 065 000.00 and R 88 694 000 respectively.

The funds stated above are to be used in the 18/19 financial period with a view to improving the living conditions of the community we serve as a municipality in respect of alleviating backlogs.

There is only one conditional operating grant for the budget year which is the Financial Management Grant which is to be utilised for capacity building by means of assisting in enhancing our institutional development through updated and improved financial systems, qualified personnel and skills development. No provision was made for MSIG and EPWP for 18/19.

Equitable Share is the only operating grant with no conditions attached to it as it is aimed at lending assistance to the day-to-day operations of the municipality, however, the municipality is expected to dedicate a portion of this grant to subsidisation of indigents and R 10 000 000.00 has been set of has been allocated.

All capital grants that have been allocated to the municipality are conditional and are geared towards alleviation of basic services and infrastructure backlogs. These have been determined as per the Division of Revenue Act. Despite the inclusion of the MIG in the 18/19 budget allocations, administration of the grant has been allocated to the district municipality.

Below is a figure providing illustration of how the grants and subsidies contribute to the overall revenue:

Equitable Share, which is our main source of revenue in terms of grants and subsidies, constitutes 69%. The amount allocated for the Municipal Infrastructure Grant contributes 17% of the total grants with Water Service Infrastructure Grant and FMG at 12 and 2% respectively.

Our municipal revenue strategy is based on the following:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the municipality and continued economic development;
- Attempt to fully recover the costs associated with user charges;
- Determining a suitable tariff escalation rate by establishing each service's revenue requirement;
- Rates and Tariff Policies;
- Indigent Policies;

The table below gives a summary of the 2018/19 MTREF, classified by the main revenue source:

As can be seen in the figure above, a larger portion of our anticipated revenue will be in the form of operating grants which amount to R 88 694 000.00, with service charges generating 26% of overall revenue budget. Interest income together with property rates are both expected to generate 12%. Capital grants will be R 37 064 000.00 out of the R 253 812 582

that is expected. Rental income, fines and other revenue will each contribute less than a percentage.

TARIFF MODELLING

This is one of the most challenging and strategic part of the compilation of any budget and calculation thereof requires consideration of local economic conditions, input costs and affordability of services for consumers.

National Treasury guidelines encourage municipalities to keep rate and tariffs affordable but cost reflective at the same time. The municipality struggles to keep the balance as in most cases, some households are unable to afford services and means that the cost-reflective method makes it more difficult for them since it escalates tariffs to more than 100%.

In a quest to formulate our tariffs in a way that neither compromises affordability of services rendered nor cost recovery, we attempted exercising the costs recovery which proved to be quite a daunting option to implement in that we would attempt to recover the cost of providing a service, however, on the other hand, we run the risk of losing loyal paying customers due to high tariffs as they would even exceed the recommended 6% increment.

The municipality is currently providing services at a loss and is really putting in an effort to implement initiatives that would lure consumers into making payment of services habitual.

The cost-reflective methodology would mean that we either break-even or operate at a surplus which would be a boost for municipal operations. The cost-recovery method is either too expensive for customers to afford or too low which would result in losses for the municipality. Refer to page 74

1.3 OPERATING EXPENDITURE FRAMEWORK

The municipal expenditure framework for the 2018/19 budget and MTREF is informed by the following factors:

- Balanced budget constraint (operating expenditure should not exceed operating revenue) unless there are existing uncommitted cash-backed reserves to fund any deficit;
- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA;
- The capital programme is informed by the need to eradicate backlogs;

Our overall expenditure amounts to R 217 908 746, down from 2017/18 financial year's R 242 719 101. This is indicative of a decrease amounting to R 24 810 355 in expenditure which was mainly informed by absence of capital expenditure funded by both Energy Efficiency Demand Management Grant and Integrated National Electrification Grant due to the municipality not allocated any for the 18/19 budget year. The decrease was further informed by the following:

- A decrease in the projection for rental of yellow fleet as the municipality has taken a decision to purchase fleet and equipment for the budget year;
- A decrease in repairs and maintenance informed by phasing out of old equipment and purchasing new ones which would mean less frequent repairs and maintenance of assets;
- Reduction in the projection for depreciation on assets as the major process of revaluating of municipal PPE has already been concluded and due to the fact that most of our assets have exceeded their lifespan.

Our total expenditure is made up of the following items:

- R 98 785 868.00 has been set aside for employee related costs;
- Remuneration of Councillors whose budget provision amounts to R 6 380 553.00;
- R 3 698 000.00 has been set aside for outsourced services which would include burial services, personnel and labour for maintenance of assets as well as catering services;
- A provision of R 10 505 000 for contracted services was made, this includes expenditure items such as the Audit Committee, valuers and assessors, legal costs as well as repairs and maintenance performed at the sewerage pumps;
- R 27 674 024 was budgeted for operational costs, these costs include travelling, telephone, indigent subsidies, fuel, protective clothing, insurance, IT expenses, bank charges, audit fees, advertisements, water chemicals, tools and equipment etc.;

- R 4 000 000.00 in respect of financing both the water and electricity debt;
- R 3 000 000.00 for interest on outstanding creditors;
- R 1 590 000.00 for minimum rental of facilities and equipment such as the mobile offices, machinery and equipment;
- R 5 000 000.00 and R 2 500 000 for non-cash items that are depreciation and bad debts respectively;
- R 1 050 000.00 for transfers and subsidies which are bursaries for non-employees and SALGA;
- R 47 060 800 in respect of capital acquisitions which include capital projects funded from MIG and WSIG as well as acquisition of yellow fleet and equipment which will be funded from internally generated funds.

In the figure provided below, a presentation has been made of how each of the expenditure items stated above contribute to the total expenditure of the municipality:

Operating expenditure comprises the following in terms of the high level summary of the 2018/19 Budget and MTREF:

1.4 CAPITAL EXPENDITURE

Our capital budget comprises R 10 700 000.00 which will be funded from own revenue and R 36 360 800 which is grant-funded. Of the grant-funded expenditure, R 22 064 000.00 will be from the Municipal Infrastructure Grant for various functional projects while the other R 15 000 000.00 will be from the Water Services Infrastructure Grant for alleviation of water distribution backlogs.

Expenditure that is to be incurred from own funds includes acquisition of computer equipment, fleet, machinery and office equipment.

Below is a table which outlines capital expenditure projections:

There was an upward adjustment of the capital expenditure from the 17/18 financial period's projections which were R 33 341 913 to 18/19's R 47 060 000. Despite absence of electrification funding for the 18/19 financial period as per the DoRA, the increase was informed by the addition of fleet and equipment purchase instead of hiring which has, in previous year proven to be very expensive as well as the expenditure from additional funding by means of the Water Services Infrastructure Grant. The Division of Revenue Bill has furthermore made provision in respect of allocations in-kind for the municipality amounting to R 19 859 000.00

The spending priorities in terms of the delivery of basic services these grant-funded projects seek to address are shown in the figure below:

PART 2

2.1 OVERVIEW OF THE BUDGET PROCESS PLAN

The MFMA requires the mayor of a municipality to provide general political guidance over the budget process and the priorities that must guide the preparation of a budget. The new National Treasury Budget Regulations gives further effect to this by prescribing that the mayor of a municipality must establish a Budget Steering Committee to assist in discharging the mayor's responsibility' set out in section 53 of the Municipal Financial Management Act.

Local Government Legislation including Municipal Structures Act (117 of 1998), section 16 - 20 of Municipal Systems Act (32 of 2000) read along with section 151 of the Constitution of the Republic of South Africa provides for the establishment of the Local Government and the procedures followed in administering the municipalities from different spheres. Public and/or community participation provides for joint and informed decision making between the municipality in question and its communities in rendering services, communities are constantly consulted on council decisions impacting the provision of services by that municipality with regard but not limited to the IDP and Budget Consultations.

In terms of section 23 of the Municipal Finance Management Act 56 of 2003 and Municipal Systems Act, the municipality should commence the process of consultation on tabled budget by conducting public hearings (budget road shows).

The draft 2018/19 MTREF Was tabled before Council on the 6th of April 2018. The IDP and Budget programme for community consultation has been made available through the local newspaper. Ratepayer associations, community-based organisations and organised businesses have also been invited to participate in the road shows.

2.1.1 ATTENDANCE

The Office of the Speaker has been utilised to facilitate the community consultation process from the 15th to the 28th of April 2016. The community was notified of relevant dates and venues for the Draft IDP and Budget Consultation meetings and an average attendance of 100 was recorded for all meetings.

Submissions received during the community consultation process and additional information regarding revenue and expenditure and individual capital projects have been considered and where relevant and possible, considered as part of the finalisation of the 2018/19 MTREF.

2.1.2 METHODOLOGY USED

Consultations were made in a form of an open public meeting where the community will be given ample opportunity to comment and ask questions on budget related issues. Each meeting lasts for an average of two hours.
