

**REPORT ON THE ADJUSTMENT OF POWERS AND FUNCTIONS
BASED ON THE 2008/09 MUNICIPAL CAPACITY ASSESSMENT**

MUNICIPAL DEMARCATION BOARD

30 NOVEMBER 2008

1 INTRODUCTION

In line with the requirements in the Municipal Structures Act, the MDB has undertaken an annual assessment of municipal capacity since 1999. In the early years, the assessment was focussed on informing the preparation of municipal boundaries. However, the importance of the adjustments that were implemented on 1 July 2003 required the Board to develop a questionnaire and rigorous process for the capacity assessment in 2002. The approach and a slightly modified questionnaire have since been consistently applied by the MDB. There is now a comparable database in place that reflects municipal capacity levels of district and local municipalities over a 7 year period.

The purpose of this report is to:

- provide an overview of the process followed by the MDB in undertaking the capacity assessment;
- provide an examination of the assessment of the capacity results and the preparation of the recommendations, and
- provide the recommended adjustments per district or local municipality per province.

2 LEGAL CONTEXT

In terms of section 85(9), the MEC responsible for local government in a province must regularly review the capacity of a relevant municipality and re-allocate a function or power to a municipality when that municipality acquires the capacity to perform its function or exercise its power. A re-allocation must be made with the concurrence of the receiving municipality or, in the absence of such concurrence, after the Demarcation Board has been consulted.

The MDB draws its mandate for the annual capacity assessment from section 85(4). This requires that the Demarcation Board considers the capacity of a district or local municipality to perform the functions and exercise the powers vested in the municipality in terms of section 84 (1) or (2) when determining or re-determining the boundaries of the district and

the local municipality, or when so requested by the MEC for local government in the province concerned.

3 PROCESS FOLLOWED FOR THE 2008/2009 CAPACITY ASSESSMENT

Once again, the assessment of municipal capacity occurred in the month of August. The process followed for the completion of the 2008/2009 capacity assessment is similar to that undertaken in the six previous years which included the following:

- Review of the questionnaire used in the 2007/2008 MDB assessment;
- Appointment of field consultants;
- Briefing session for Provincial Departments of Local Government and the field consultants;
- Field work, data capture and verification;
- Preliminary assessment of the capacity results per function with draft recommendations prepared for testing during the drafting of the district reports;
- Drafting of the district capacity reports, and
- Preparation of the recommended adjustments for the 2008/2009 period.

The format of the 2008/09 questionnaire was modified from the 2007/08 assessment to include the following questions:

- Gender of all senior managers
- Gender of manager per function.

Based on the success of the participation of the Provincial Departments of Local Government in the 2004 to 2007 capacity assessment, it was agreed by the Powers and Functions Steering Committee that the same process should occur in the 2008 period.

The process followed for the Provincial participation was as follows:

- The appointed field consultant made the appointment with the municipality;
- Once the appointment was confirmed, a notice of the meeting indicating the time and venue was sent to the respective province;
- The Province then determined their representatives based on availability.

The table below indicates the extent of the provincial participation:

Province	Comment
Western Cape	Provincial representatives attended some of the meetings and their participation was helpful.
Northern Cape	No participation
Eastern Cape	No participation
Free State	Provincial representatives attended some of the meetings and their participation was helpful.
KwaZulu-Natal	Provincial representatives attended some of the meetings and in some instances, very helpful. This was especially the case where municipal managers were reluctant to participate in the process.
Mpumalanga	No participation
Limpopo	No participation
North West	No participation
Gauteng	No participation

4 USING THE INFORMATION PROVIDED IN APPENDIX A

It is *easy to misinterpret* the information contained in the tables containing the MDB information.

The tables are prepared on the following basis:

- The adjustments made on 1 July 2003 as amended by notices published thereafter are contained in column 3;
- The recommendations for the 2008/2009 period which have taken into account the recommendation made 2007/2008 *but are directly linked to column 3 current status quo for the adjustment of functions.*

It should be noted that if a recommendation is made, for example, the reversal of the section 84(1)(j) function (fire fighting) from the local municipal back to the district, it *does not mean* the local aspect of the function is then automatically adjusted to the district as well. Municipalities should be made aware of the implications of both the adjustment of functions and the reversal thereof. In addition, Provincial Departments of Local Government equally need to ensure that errors are not made when publishing amendments.

The table below provides an illustration:

6 CONCLUDING COMMENTS AND RECOMMENDATIONS

The impact of the above recommended amendments to the adjustments made on 1 July 2003 and thereafter requires further investigation.

IT IS RECOMMENDED THAT

- The adjustments contained in appendix A be approved;

- This report and the district reports be circulated to the MEC after the December 2008 Board meeting, and
- The district reports be circulated to the affected municipalities for comment.
